REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art made of record does not disclose or teach the respirator having the specific structure and relationship as claimed in claim 1 including the first and second sealing means adapted for increasing sealing contact under the influence of the air pressure means, and the first and second cavities define separate non-communicating cavities when positioned against a user's face air is inhaled under negative pressure solely through the first cavity, air is exhaled solely through the first cavity and a positive pressure is maintained in the second cavity so that the first and second sealing means are urged into a more positive engagement with the face of the user.

The prior art made of record does not disclose or teach the respirator having the specific structure and relationship as claimed in claim 8 including a respirator wherein air is inhaled under negative pressure, and the sealing piece comprising a gas inlet for allowing, in use the supply of pressurized gas to the cavity such that a positive pressure is maintained in the cavity.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Terminal Disclaimer

2. The terminal disclaimer filed on January 27, 2010 disclaiming the terminal portion of any patent granted on this application has been approved and recorded.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Warncke (4,574,799) and Gadberry (4,402,316) disclose additional respirator masks having sealing means; however, these sealing means do not overcome the novelty of the instant invention's construction.
